TECHNICAL SKILLS

Languages

PHP, JavaScript, Python

Frontend

HTML5, CSS3, React, Bootstrap, Tailwind CSS

Backend

Laravel, REST APIs, MVC Architecture

Databases

MySQL, MongoDB

Tools

Git, GitHub, Docker, Postman, VS Code

Methodologies

Agile, Scrum, Kanban, Sprint Planning, Iterative Development

CERTIFICATIONS

MongoDB

Aggregation; Aggregation with Node.js

Cisco

Python Essentials 1; Intro to Modern AI; Intro to Cybersecurity; Computer Hardware Basics

Hackathon

Aman Hackathon Participation Certificate

AWARDS

3rd Place — Regional Winner

INJAZ Al-Maghrib Entrepreneurship Competition

1st Place - Hackathon

Aman Hackathon Core x loga sprint ESTBm

HISSANE Omar Adam

Full-Stack Web Developer | Software Engineering Student

hissaneomaradam.dev | github.com/hissaneomaradam | linkedin.com/in/hissaneomaradam | omaradamhissane@gmail.com

PROFESSIONAL SUMMARY

Full-Stack Web Developer and Software Engineering student building real-world digital products end to end with Laravel, PHP, React, JavaScript, MySQL, and MongoDB. Skilled in REST API design, responsive interfaces, and Git workflows, delivering in Agile teams through Scrum and Kanban. A continuous learner and problem solver targeting engineering school admission, internships, and junior developer roles with strong technical foundations and a growth mindset.

EXPERIENCE

Field Survey & Data Collection Intern

February 2026

INNOV Engineering Consulting — Morocco · SUMP of Béni Mellal

- Conducted field surveys and collected, validated transportation and mobility data for the Sustainable Urban Mobility Plan (SUMP) of Béni Mellal.
- Supported urban mobility studies and contributed to clear technical documentation and reporting.
- Collaborated within a multidisciplinary engineering team, strengthening research methodology and attention to detail.

EDUCATION

CMC Béni Mellal – OFPPT

Sep 2025 – Present

Développement Web Full Stack (DEVOWFS) · Classe d'Excellence

Selected for the Classe d'Excellence; specialized in full-stack web development through project-based learning and modern software engineering practices.

ISGI Khouribga

Sep 2024 – Jul 2025

Développement Digital · Diploma in Digital Development

PROJECTS

UniBuddy

React · Laravel · MySQL · unbuddy.me

- Built a student collaboration and networking platform from concept to deployment with secure authentication and role-based user management.
- Designed a responsive UI/UX and scalable REST/MVC backend, delivered iteratively with Agile workflows and Git.

CoBIM Cloud

Laravel · React · Three.js · cobim-cloud.vercel.app

- Developed a cloud-based, BIM-focused full-stack platform with a modern, responsive interface and BIM-oriented workflows.
- Applied user-focused design and deployed to the cloud (Vercel) through a collaborative development process.

Personal Portfolio

hissaneomaradam.dev

- Built a responsive portfolio and personal brand showcasing projects, certifications, and technical skills, maintained and deployed independently with modern web tooling.

KEY ACHIEVEMENTS

- Developed and deployed real-world full-stack web applications; earned multiple certifications across software development, databases, AI, cybersecurity, and programming.
- Participated in hackathons and innovation initiatives, with continuous self-learning and collaborative technical project work.
